Welcome to Kundli 8

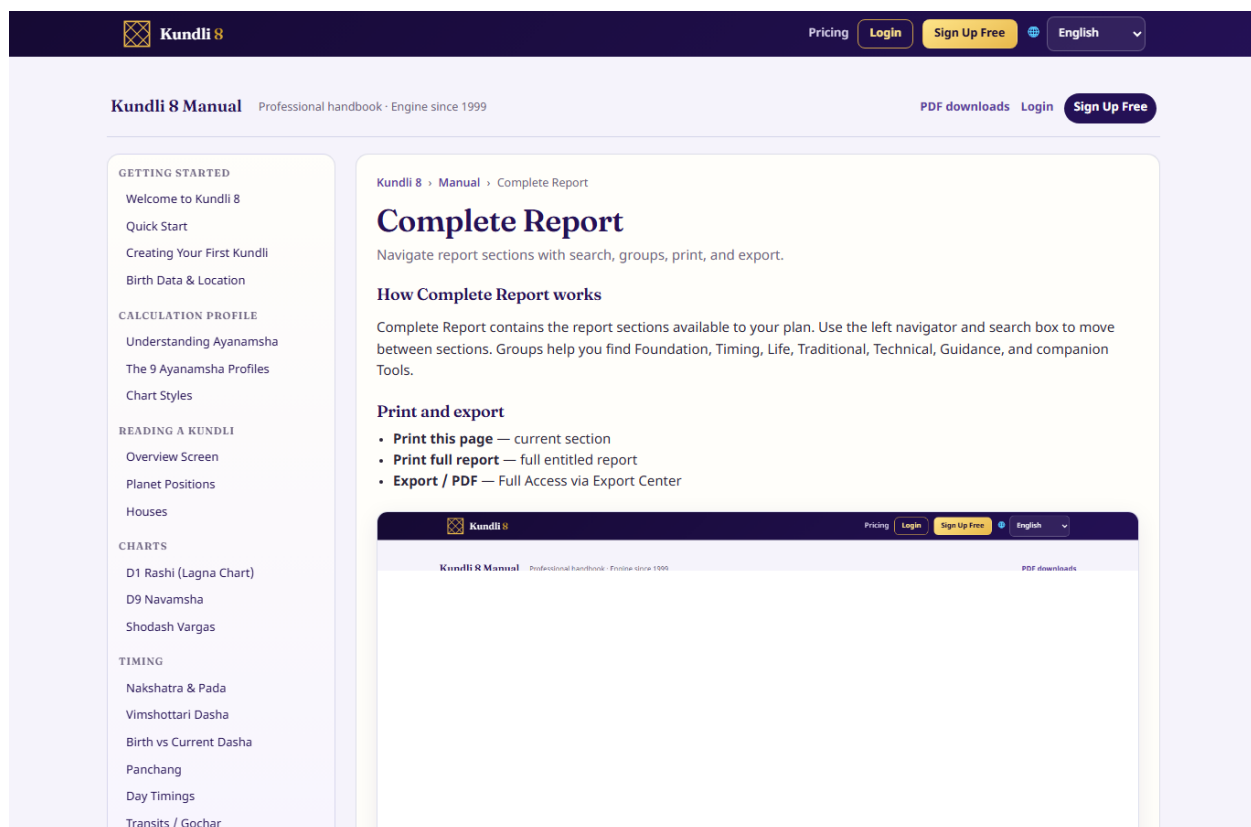

What Kundli 8 is, how the workspace is organised, and how to learn with your own chart.

What you will learn

- How Kundli 8 is organised as one Complete Report workspace
- How trial explore differs from PDF export
- How to use this manual with your own chart

What Kundli 8 does

Kundli 8 is professional Vedic astrology software powered by the **Kundli 8 Engine — since 1999**. You create a birth Kundli, then study charts, dasha, Panchang, Ashtakavarga, and deep report sections in one shell — the same experience on the website and the Microsoft Store app.

Left: section navigator. Center: active section. Top: Overview · Charts · Dasha dock.

Where to find it

1. Open astro.maya123.com or the Store app.
2. Sign in or start the 15-day trial.
3. Create or open a Kundli → Complete Report.

Common mistakes

- Expecting PDF during trial — PDF is Full Access only.
- Comparing two apps without matching ayanamsha and birth time.
- Treating every Varga chart as equally central to daily reading — start with D1 and D9.

Next lesson

[Quick Start →](#)

Quick Start

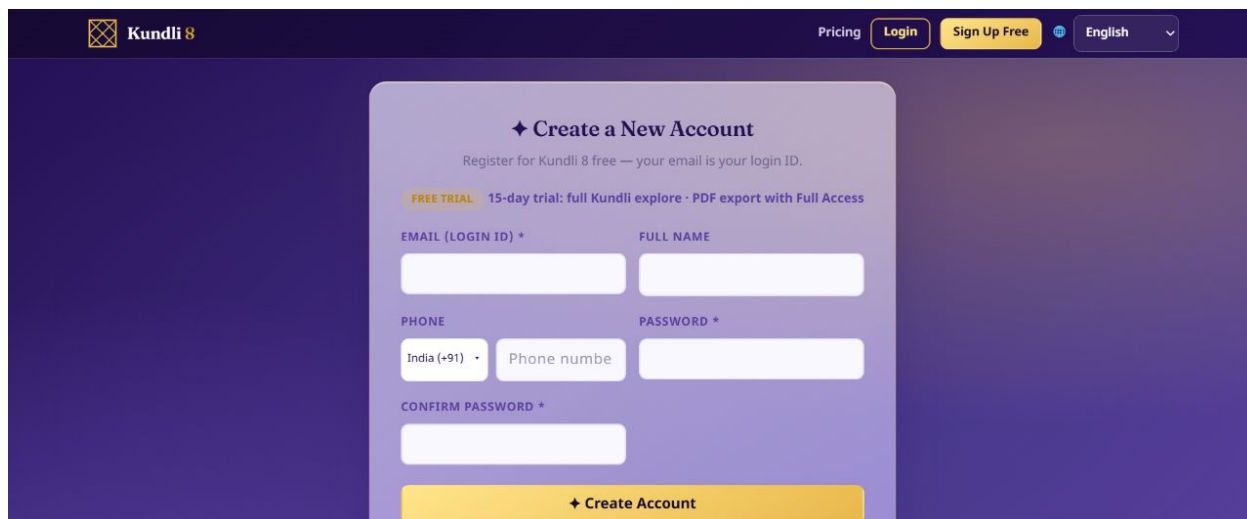

Create a Kundli and open Complete Report in minutes.

What you will learn

Understand Kundli 8 in about 5–10 minutes — from Create Kundli to Complete Report and PDF honesty.

Worldwide phone registration

The compact phone row starts with India (+91). Open the country selector to search by country name, ISO code or calling code; all 249 countries and territories remain available. Enter a national number beside it or a full international number starting with +. Canada and the United States remain separate choices even though both use +1. Account uses the same compact selector. Phone country does not determine checkout prices.

Search the phone country, then enter a national or international number. The same account works on web and Windows.

Guided path (10 steps)

1. **Create Kundli** — name, date, time, place.
2. **Verify birth location / timezone** — use place search so lat/lon/tz stay consistent.
3. **Choose Ayanamsha** — Lahiri is the common default; keep it consistent on a case.
4. **Choose chart style** — North / South / East (same math, different drawing).
5. **Open D1 / D9** — birth chart + Navamsha in Charts / Complete Report.
6. **Birth vs Current Dasha** — read both labels on Vimshottari.
7. **Open Panchang** — Tithi, Nakshatra, Yoga, Karana, Vara.
8. **Open Complete Report** — navigate the dock; start with Overview → Planets → Charts.
9. **Save chart** — reopen anytime on web or Store app with the same account.
10. **Export PDF** — Full Access only; trial can explore on-screen.

Next lesson

[Creating Your First Kundli →](#)

Creating Your First Kundli

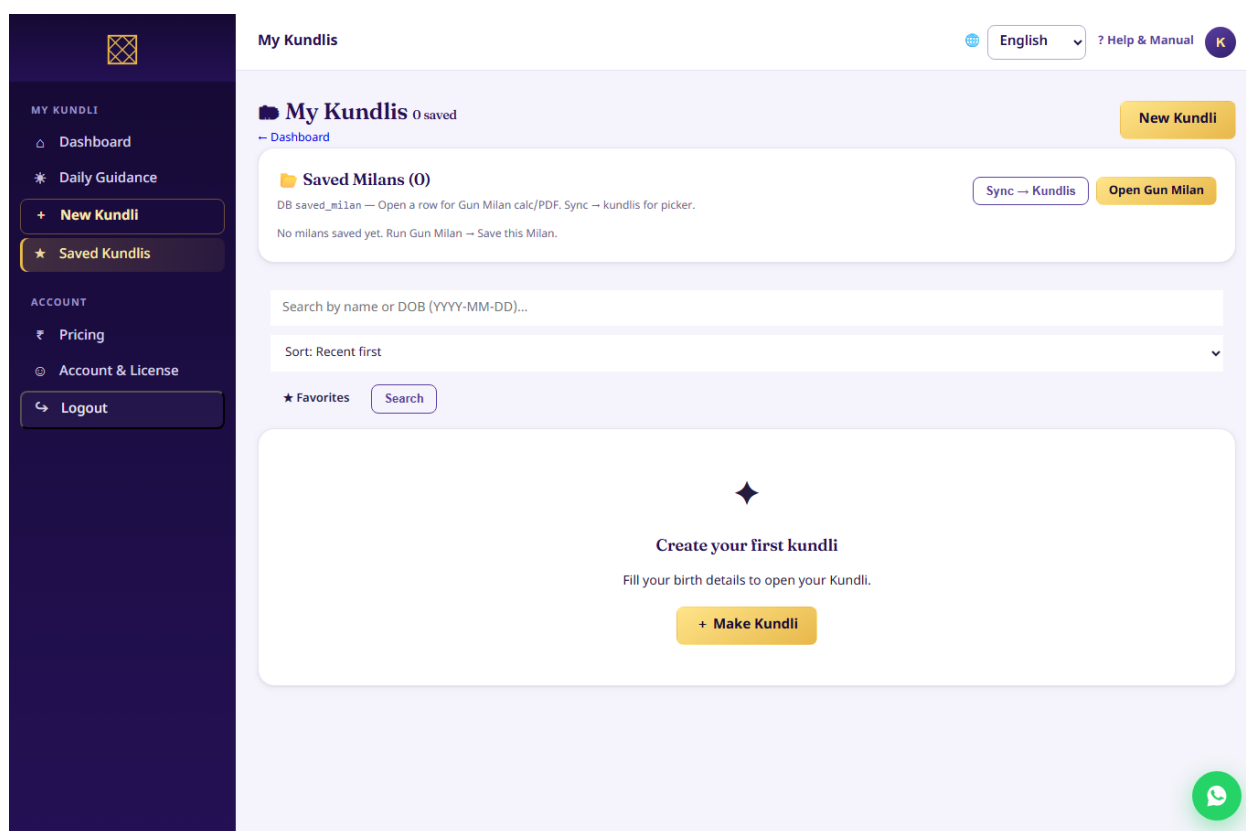

Name, birth data, place search, ayanamsha, and save.

Fields that matter

- **Date of birth** — calendar day in local civil date.
- **Time of birth** — as accurate as records allow; minutes move Lagna.
- **Place** — use the place search so latitude/longitude/timezone are consistent.
- **Ayanamsha** — choose a school from the available profiles (see the 9-profile lesson).

Step-by-step

1. Dashboard → New Kundli.
2. Fill name and birth data.
3. Save — the Kundli appears under Saved.
4. Open workspace → Complete Report.

Reopen the same chart later on any device with your account.

Common mistakes

- Using noon when the true birth time is known.
- Mixing IST label with a non-India place timezone.

Birth Data & Location

Date, time, timezone, and place accuracy.

Why precision matters

Lagna and house cusps (whole-sign mapping) depend on time and place. Dasha balance depends on Moon longitude. Small time errors can change Lagna; large place errors change timezone and sunrise context.

What Kundli 8 stores

- Civil date and time
- Place label + coordinates
- Timezone used for calculation
- Selected ayanamsha school

Tip

If birth details or chart results look unexpected, first re-check date, time, timezone, location, and ayanamsha. Contact Support if the issue remains.

Understanding Ayanamsha

What sidereal ayanamsha changes — and what it does not.

What ayanamsha changes

Ayanamsha is the offset between the tropical and sidereal zodiac. Changing it shifts sidereal longitudes for planets and Lagna, which can change signs, Nakshatra, and derived tables.

What it does not change

- The underlying ephemeris event times (civil birth instant).
- Your saved birth data fields.
- Whether PDF is allowed (that is entitlement, not ayanamsha).

Preview vs save

Astro Settings can preview another school temporarily. Saving as default updates future opens for your account preference. Always note which school a client report used.

Why two apps may differ

Different ayanamsha, house system, true/mean node, or birth-time rounding will disagree even when both are “correct” inside their rules. Kundli 8 documents its schools; match settings before comparing.

The 9 Ayanamsha Profiles

Lahiri, KP, Raman, Fagan-Bradley, Bhasin, Yukteshwar, Suryasiddhanta, Aryabhata, Usha-Shashi.

Nine available ayanamsha profiles

Kundli 8 includes **nine** ayanamsha schools. None is declared universally “correct” — choose the school your practice uses and keep it consistent on a case.

Profile	Notes
N.C. Lahiri	Common Indian public / Government of India convention used widely in print almanacs.
Krishnamurti (KP)	KP school ayanamsha setting — not a claim of a full KP house/sub-lord product.
B.V. Raman	Raman school offset used by many traditional practitioners.
Fagan-Bradley	Western sidereal convention (Fagan-Bradley).
J.N. Bhasin	Bhasin school among Kundli 8 available options.
Sri Yukteshwar	Yukteshwar school among Kundli 8 available options.
Suryasiddhanta	Classical Suryasiddhanta-related school option.
Aryabhata	Aryabhata school among Kundli 8 available options.
Usha-Shashi	Usha-Shashi school among Kundli 8 available options.

How to switch

1. Open Astro Settings in the workspace top bar.
2. Select an ayanamsha.
3. Confirm whether you are previewing or saving as default.
4. Re-check D1 sign and Vimshottari after the change.

Chart Styles

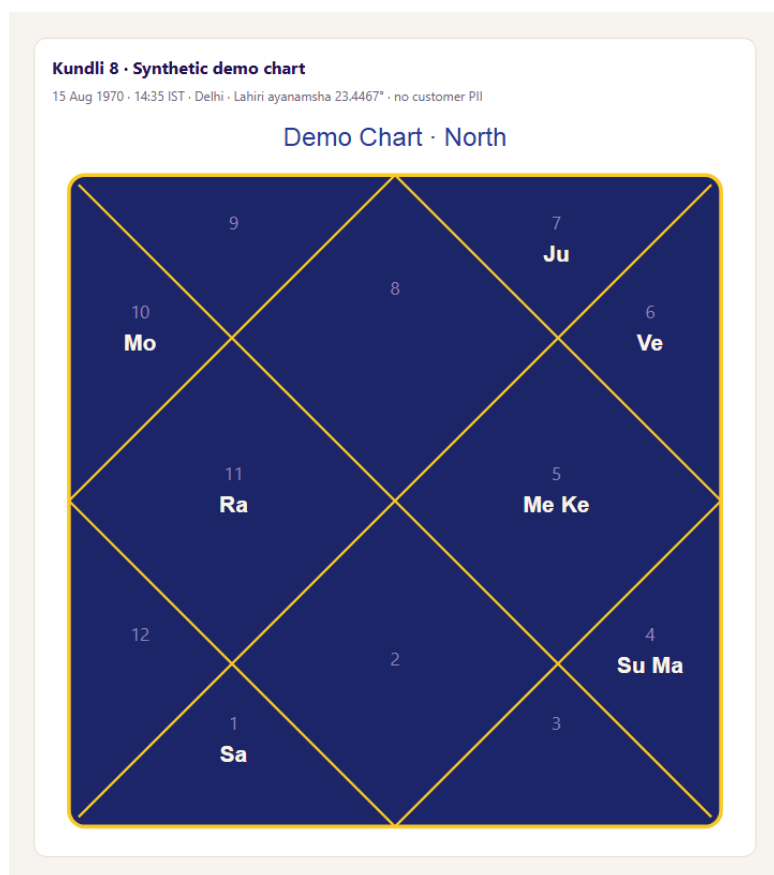

North, South, Bengali/East, Oriya, and Circular — same math, different drawing.

Drawing traditions

- **North Indian** — diamond / house-fixed style familiar across North India.
- **South Indian** — fixed-sign square layout.
- **Bengali / East Indian** — East-Indian traditional presentation.
- **Oriya (Odia)** — fixed-sign square used in Odia kundli presentations (same underlying positions).
- **Circular** — 12-sector wheel by sidereal longitude (Vedic visualization).

Same calculations

Changing chart style redraws the same sidereal positions. It does not change ayanamsha math by itself. Planet longitudes, Lagna, houses, Dasha, and Panchang stay the same.

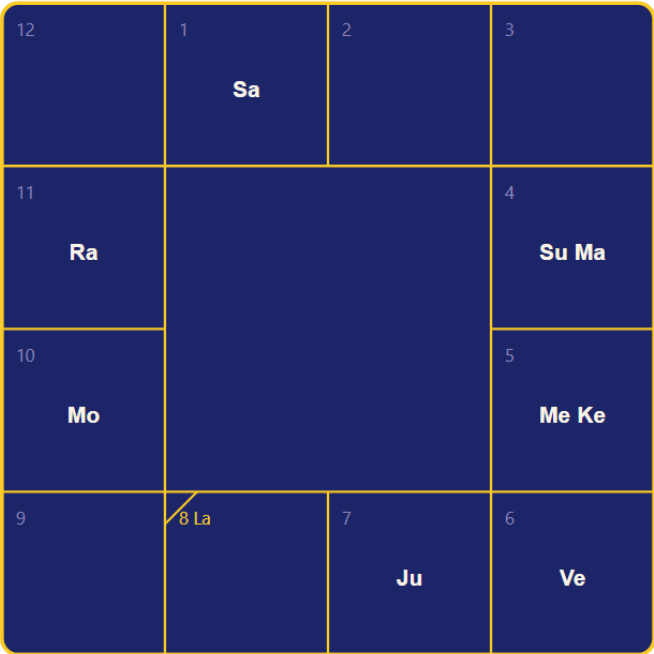

Sample D1 chart (North) — same positions as other styles.

Kundli 8 · Synthetic demo chart

15 Aug 1970 · 14:35 IST · Delhi · Lahiri ayanamsha 23.4467° · no customer PII

Demo Chart · South

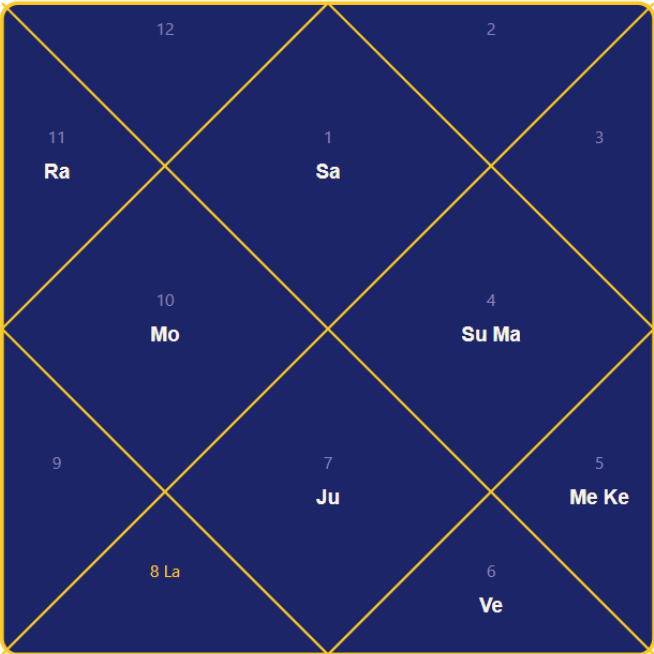

Same math — South Indian fixed-sign layout.

Kundli 8 · Synthetic demo chart

15 Aug 1970 · 14:35 IST · Delhi · Lahiri ayanamsha 23.4467° · no customer PII

Demo Chart · East

Same math — East Indian presentation.

Overview Screen

Lagna chart snapshot, Moon, Nakshatra, current MD/AD/PD, Sade chip.

What Overview shows

Overview is a fast orientation card: Lagna chart, name, birth stamp, Lagna, Moon, Nakshatra, current MD/AD/PD line, and a light Sade Sati chip with a link into the full section.

Planet Positions

How to read the planet table in Complete Report.

Reading the planet table

Complete Report → Planets lists each graha with sign, longitude context, and related fields used throughout the report. Use it as the numeric companion to the chart drawing.

Planet table · synthetic demo (Delhi 15-Aug-1970)

Planet	Sign	Longitude
Sun	Cancer	118.68°
Moon	Capricorn	273.79°
Mars	Cancer	114.56°
Mercury	Leo	146.02°
Jupiter	Libra	186.50°
Venus	Virgo	163.98°
Saturn	Aries	28.81°
Rahu	Aquarius	309.37°
Ketu	Leo	129.37°

Example planet positions from a sample demo chart.

Tips

- Confirm ayanamsha before debating a sign boundary.
- Node mode (Mean/True) is a separate setting — match it when comparing software.

Houses

Whole-sign house reference in Kundli 8.

Whole-sign house reference

Kundli 8's primary house presentation for classical sections is whole-sign oriented. The Houses / Bhav reference section summarises house lords and occupancy for study.

Note

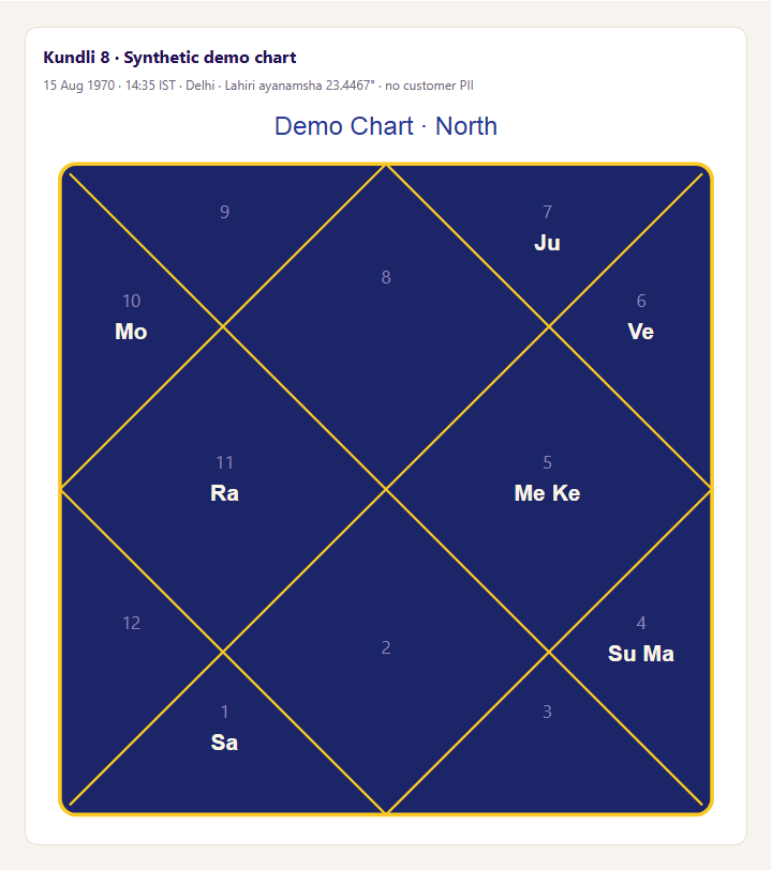

Classical Bhava Bala (full twelve-house strength system) is not currently available. The section titled *House Lord Strengths (proxy)* is a lighter reference view — not a substitute for classical Bhava Bala.

D1 Rashi (Lagna Chart)

Birth chart reading in North / South / East styles.

D1 — the birth chart

D1 (Rashi / Lagna chart) is the main birth chart. Read Lagna, Moon, and key yogas from this map first.

Sample D1 chart (North) — Charts and Complete Report share the same positions.

D9 Navamsha

Navamsa map and how it sits beside D1.

D9 — Navamsha

D9 is the primary divisional chart beside D1. Use D1 and D9 together for a solid reading foundation. Many schools also use D9 for marriage and deeper dignity context.

Shodash Vargas

Shodash divisional charts for study — D1 and D9 are primary in the guided interface.

Shodash-16

Kundli 8 provides the Shodash divisional charts for study. D1 and D9 are the primary charts used throughout the guided interface. Other Vargas are provided as technical chart views and should be interpreted according to the user's astrological school.

Common mistakes

- Expecting every Varga to match another app without checking the same rules and ayanamsha.
- Reading a single Varga in isolation without D1 context.

Nakshatra & Pada

Moon Nakshatra, pada, and lords.

Nakshatra & Pada

Moon Nakshatra (and pada) anchors Vimshottari balance. Overview and planet/Panchang surfaces show Nakshatra context for the chart and for day Panchang.

Vimshottari Dasha

Mahadasha, Antardasha, Pratyantardasha hierarchy.

Hierarchy

- **Mahadasha (MD)** — major period
- **Antardasha (AD)** — sub-period
- **Pratyantardasha (PD)** — sub-sub period

Kundli 8 computes the nested Vimshottari chain from Moon Nakshatra balance using the Kundli 8 Engine.

Vimshottari section

Complete Report → Vimshottari shows birth hierarchy and dated ranges.

Birth vs Current Dasha

Why birth MD/AD can differ from today's periods.

Two different questions

Birth Dasha answers: which MD/AD/PD applied at the birth instant.

Current / reference Dasha answers: which MD/AD/PD applies on a chosen date (often "today").

Example pattern

A chart may show Birth as Mars/Mercury while a 2026 reference date shows Rahu/Jupiter. That is not a contradiction — periods advance with time.

Look for dual labels and the as-of date on the Vimshottari section.

Common mistakes

- Reading only "current" and calling it the birth dasha.
- Comparing without matching the as-of date and ayanamsha.

Panchang

Tithi, Nakshatra, Yoga, Karana, Vara.

Five limbs (+ day context)

- Tithi
- Nakshatra
- Yoga
- Karana
- Vara

Sunrise and Sunset are shown as approximate day bounds used by Day Timings. Moonrise and Moonset are not currently available in Kundli 8.

Day Timings

Hora, Abhijit, Rahu Kaal, Yamaganda, Gulika Kaal.

Available day parts

- Planetary Hora
- Abhijit
- Daytime Rahu Kaal
- Yamaganda Kaal
- Gulika Kaal (day-part window)

Note

Birth-chart Gulika / Mandi as an upagraha point is a separate topic from the daytime Gulika Kaal table. Night Rahu Kaal is not currently shown.

BAV / SAV Ashtakavarga

Bhinnashtakavarga and Sarvashtakavarga bindus available in Kundli 8.

What Kundli 8 provides

Kundli 8 shows **Prastara** (contributor × rashi bindu/reka matrix), **Bhinnashtakavarga (BAV)** totals per sign, and **Sarvashtakavarga (SAV)**. Row totals in Prastara match BAV. Advanced reduction methods (Trikona / Ekadhipatya / Pinda) are not currently included.

Kundli 8 Manual · 25 / 40 · astro.maya123.com

Transits / Gochar

Live gochar relative to the natal chart.

Gochar

Live Gochar shows current planetary positions relative to the natal chart. Use it together with Vimshottari and Sade Sati for a fuller timing picture.

Varshphal

Solar-return year views available in Complete Report.

Solar return year

Varshphal presents the solar-return year views available in Complete Report. Yearly Muntha and solar-return charts change with the selected year.

Monthly / Maas Lagna

Classical Monthly (Maas) Lagna / Masa-Pravesh is **not** certified in Kundli 8. The Monthly tab explains that Maas Lagna is unavailable — it does not substitute an annual chart as monthly Lagna. Research monthly house variants may appear only under Astrologer Pro provisional labels.

Matching (Gun Milan & Vivah)

Ashtakoot 36 and Advanced Vivah methodology.

Gun Milan

Classical Ashtakoot 36-point matching for a boy/girl pair.

Advanced Vivah

Extended matching methodology for entitled professional use. Some advanced matching rules are not currently included.

KP Features

KP ayanamsha and selected KP-oriented tables — not a full KP suite.

KP in Kundli 8

Kundli 8 supports the Krishnamurti (KP) ayanamsha and selected KP-oriented tables. It is not currently positioned as a complete KP astrology suite.

Lal Kitab

What the Lal Kitab panel includes with Full Access.

Lal Kitab

Lal Kitab with Full Access covers Teva overview, planet-by-house effects (safety-bounded), Pakka Ghar comparison, cautions, and evidence where available.

What is not claimed as complete

Kundli 8 does **not** claim a complete Lal Kitab corpus. Matched remedies, Soya/Sathi/Andha special states, and Lal Kitab annual (LalVarsh) remain fail-closed until source-backed fixtures pass. PDF export follows Full Access policy.

Numerology

Product schools available in Kundli 8.

Available schools

Kundli 8 numerology includes labeled product schools such as date-of-birth numbers and name schools. Some advanced boards are not currently available.

Complete Report

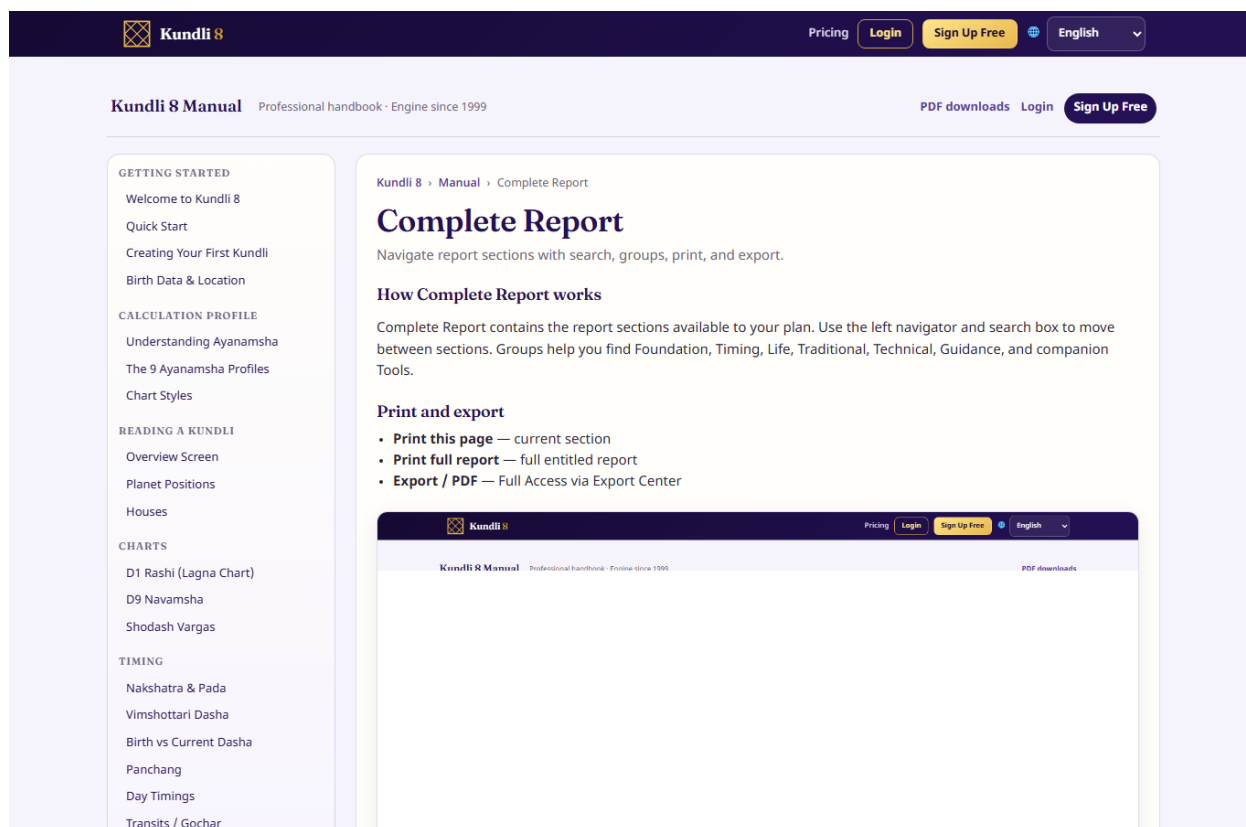

Navigate report sections with search, groups, print, and export.

How Complete Report works

Complete Report contains the report sections available to your plan. Use the left navigator and search box to move between sections. Groups help you find Foundation, Timing, Life, Traditional, Technical, Guidance, and companion Tools.

Print and export

- **Print this page** — current section
- **Print full report** — full entitled report
- **Export / PDF** — Full Access via Export Center

Search filters section titles; open any section from the left rail.

Reports & PDF

Print this page, print full, Export/PDF — trial vs Full Access.

On-screen vs PDF

- **Trial** — explore Complete Report on-screen; Print/Export stay locked.
- **Full Access** — Print this page, Print full report, and Export/PDF via Export Center.

Print the same report

Print Full Report opens the complete PDF; Print this page opens the current section PDF. Choose Print in the PDF viewer and select A4 or Save as PDF. Report Builder offers Print selected report beside Export PDF; both use the same saved section selection. Optional Astrologer Pro reports have separate availability and do not affect ordinary report printing.

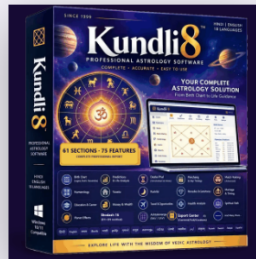

The screenshot displays the Kundli 8 Manual website interface. The top navigation bar includes the Kundli 8 logo, links for Pricing, Login, Sign Up Free, and a language selector set to English. The main header identifies the page as 'Kundli 8 Manual' and 'Professional handbook - Engine since 1999', with additional links for PDF downloads, Login, and Sign Up Free. A left sidebar lists the site's structure under categories like GETTING STARTED, CALCULATION PROFILE, READING A KUNDLI, and CHARTS. The main content area, titled 'Kundli 8 > Manual > Reports & PDF', features the section header 'Reports & PDF' and the text 'Print this page, print full, Export/PDF — trial vs Full Access.' Below this, the 'On-screen vs PDF' section lists the same two access levels: Trial (exploring the complete report on-screen with print/export locked) and Full Access (printing the page, full report, and exporting via the export center). A dark 'Export / PDF toolbar' button is visible. Further down, a 'Roadmap families' section provides product direction and a 'Complete Report' link. The page footer contains copyright information for PremiumKundli and a disclaimer about the handbook's content.

Gold Export opens Export Center when your plan allows it.

Report Builder

Use [Report Builder](#) to choose a preset, select sections, preview on-screen, and export PDF when Full Access is active.

Building a Custom Report

Choose presets, select sections, preview, and export PDF with Full Access.

What you will learn

Build a custom PDF from available Kundli 8 report sections — without changing any calculations.

Step-by-step

1. Open [Report Builder](#) (sign in required).
2. Choose a preset such as Essential, Complete, Learning, Marriage Focus, or Career Focus.
3. Customize which sections to include.
4. Preview the on-screen report.
5. Export PDF when Full Access is active. Trial users can preview, but PDF stays locked.
6. Optionally save a custom preset for later.

Common mistakes

- Expecting PDF during trial.
- Assuming Report Builder recalculates astrology — it only selects existing sections.

Saved Kundlis

Reopen charts on web and Microsoft Store app.

One account

Saved Kundlis belong to your Kundli 8 account. You can reopen the same charts on the website and the Microsoft Store app.

Trial & Full Access

15-day explore trial; PDF paid-only; secure web checkout.

15-day trial

- No payment required to start
- Trial is linked to your account
- PDF export unlocks with Full Access

Full Access plans

India: ₹999 / ₹2,499 / ₹9,999 · International: \$10 / \$24 / \$99. Checkout runs securely on the Kundli 8 website.

After payment

A confirmed payment activates Full Access for the purchased duration. Continue to your Kundli to download PDF or print. If confirmation is still processing, allow the automatic status check to finish. Do not pay again if money was debited. Refresh Account or contact Support if access remains pending. Closing the payment window alone does not prove that payment failed.

Microsoft Store Version

Same Kundli 8 account and saved charts as the web version.

Same Kundli 8 account

The Microsoft Store version connects to the same Kundli 8 account and saved charts as the web version.

Optional Full Access

If you choose a Full Access plan, purchase is completed securely on the Kundli 8 website.

Troubleshooting

Login, trial, PDF lock, chart style, and common errors.

Quick fixes

- **Cannot export PDF** — If PDF export is unavailable, check whether your Full Access plan is active.
- **Numbers differ from another app** — match ayanamsha, node mode, and birth time first.
- **Store app blank** — check your internet connection, then use Retry.
- **Trial ended** — you can still sign in; Full Access areas remain locked until you upgrade.

Glossary

Short definitions used across Kundli 8.

Glossary
